

## Multiplication x7, x8, x9

$1 \times 8 = \underline{8}$

$5 \times 8 = \underline{40}$

$1 \times 8 = \underline{8}$

$6 \times 9 = \underline{54}$

$8 \times 9 = \underline{72}$

$9 \times 8 = \underline{72}$

$6 \times 9 = \underline{54}$

$8 \times 7 = \underline{56}$

$2 \times 9 = \underline{18}$

$6 \times 7 = \underline{42}$

$3 \times 7 = \underline{21}$

$9 \times 8 = \underline{72}$

$3 \times 8 = \underline{24}$

$3 \times 9 = \underline{27}$

$9 \times 8 = \underline{72}$

$6 \times 7 = \underline{42}$

$5 \times 7 = \underline{35}$

$1 \times 7 = \underline{7}$

$2 \times 7 = \underline{14}$

$9 \times 9 = \underline{81}$

$4 \times 9 = \underline{36}$

$9 \times 8 = \underline{72}$

$3 \times 7 = \underline{21}$

$5 \times 9 = \underline{45}$

$2 \times 9 = \underline{18}$

$3 \times 8 = \underline{24}$

$3 \times 7 = \underline{21}$

$5 \times 9 = \underline{45}$

$6 \times 9 = \underline{54}$

$4 \times 8 = \underline{32}$

$6 \times 9 = \underline{54}$

$3 \times 9 = \underline{27}$

$9 \times 9 = \underline{81}$

$9 \times 9 = \underline{81}$

$4 \times 9 = \underline{36}$

$5 \times 7 = \underline{35}$

$5 \times 9 = \underline{45}$

$7 \times 8 = \underline{56}$

$5 \times 8 = \underline{40}$

$6 \times 7 = \underline{42}$

$3 \times 7 = \underline{21}$

$3 \times 8 = \underline{24}$

$8 \times 9 = \underline{72}$

$4 \times 7 = \underline{28}$

$1 \times 8 = \underline{8}$

$7 \times 9 = \underline{63}$

$6 \times 9 = \underline{54}$

$1 \times 8 = \underline{8}$

$3 \times 8 = \underline{24}$

$8 \times 7 = \underline{56}$

$6 \times 7 = \underline{42}$

$9 \times 9 = \underline{81}$

$6 \times 7 = \underline{42}$

$2 \times 9 = \underline{18}$

$7 \times 9 = \underline{63}$

$7 \times 7 = \underline{49}$

$8 \times 9 = \underline{72}$

$3 \times 9 = \underline{27}$

$4 \times 8 = \underline{32}$

$6 \times 8 = \underline{48}$

$6 \times 7 = \underline{42}$

$8 \times 7 = \underline{8}$

$7 \times 9 = \underline{63}$

$8 \times 9 = \underline{72}$

$5 \times 8 = \underline{40}$

$5 \times 9 = \underline{45}$

$7 \times 9 = \underline{63}$

$7 \times 7 = \underline{49}$

$3 \times 7 = \underline{21}$

$8 \times 8 = \underline{64}$

$6 \times 9 = \underline{54}$

$9 \times 7 = \underline{63}$
